THE HATCH HOUSE,
Main Street, Bangor, Maine.
This House has been thoroughly repaired, refitted, and refurnished throughout with New Carpets, Furniture, Beds and Bedding, and is now open for the reception of company, under the charge of the subscriber.
It is a large, commodious, and well furnished House, situated on Main Street, near the centre of the city, and within a short distance of the Steamboat Wharves and the Depot of the P. & K. Railroad, to and from which, Coaches are always in readiness to convey passengers.
Its numerous advantages to strangers, and particularly to those visiting the city on business or for pleasure, renders it one of the most desirable Houses in the city.
Connected with the House is a large and commodious Stable, in charge of competent and faithful hostlers.
By strict personal attention to the comfort of his guests the proprietor hopes to receive a liberal share of patronage.
NATHAN PERRY, Jr.
Bangor, Feb. 28, 1855.

STANLEY HOUSE,
WATER STREET, AUGUSTA, ME.
G. W. RICKER, would respectfully announce to the Traveling Public, that he has reopened the Stanley House, Augusta, and furnished it throughout with NEW and ELEGANT FURNITURE, and made every arrangement necessary to continuing it as a First Class Hotel.
This is the most centrally located House in the city, being directly opposite the Depot, and in close proximity to the steamboat landing, Court House, Post-Office, and but a few minutes' walk from the State House.
Business men, or persons traveling for pleasure, will find that this House affords every convenience or luxury that can be desired, and the Proprietor is determined to spare no pains to make it in every respect second to none in the State.
Looks for all Stages leaving town will be kept at this House.
In connection with the above are good Stables with attentive and careful Hostlers.

Marine and Fire Insurance,
—AND—
SHIP BROKERAGE.
INSURANCE on Vessels, by the year, voyage or passage, and on Cargoes, Freights and Charters; also, Fire risks on Ships on stocks, Factories, Stores and Merchandise, Churches, Dwellings, and all other insurable property in any part of New England, can be effected, in reliable companies, by addressing personally, or by mail, the undersigned. In addition to their present business, they have added that of
Ship Brokerage,
which will be attended to by one of the firm who has had much experience practically with Shipping and Marine Business generally, and we can assure those who may be seeking purchasers, freights or charters, for their vessels, and others in search of vessels, that by placing their orders with us they will secure prompt attention to their interests.

ALL HAIL!!
Something for the Million!!!
PROF. WOOD'S
HAIR RESTORATIVE!
WE CALL THE ATTENTION OF ALL, OLD and YOUNG, to this wonderful preparation, which turns back to its original color, gray hair—covers the head of the bald with a luxuriant growth—removes the dandruff, itching, and all cutaneous eruptions—causes a continual flow of the natural fluids; and hence, if used as a regular dressing for the hair, will preserve its color and keep it from falling to extreme old age, in all its natural beauty. We call then upon the bald, the gray, or diseased in scalp, to use it; and surely the young will not, as they value the flowing locks, or the witching curl, ever be without it. Its praise is upon the tongue of thousands.

Watertown, Mass. May 1, 1856.
PROF. O. J. WOOD: Allow me to attest the virtues and magic powers of your Hair Restorative. Three months since, being exceedingly gray, I purchased and soon commenced to use, two bottles; and it soon began to tell, in restoring the silver locks to their native color, and the hair, which was before dry and harsh, and falling off, now became soft and glossy, and it ceased falling; the dandruff disappeared, and the scalp lost all the disagreeable itching, so annoying before, and now I not only look but feel young again. Respectfully, yours, etc.
CHAS. WHITNEY.

New York, Oct. 2, 1855.
PROF. O. J. WOOD—Dear Sir: After reading the advertisement in one of the New York journals, of you celebrated Hair Restorative, I procured a half pint bottle, and was so much pleased with it that I continued for two months, and am satisfied it is decidedly the best preparation before the public. It at once removed all the dandruff and unpleasant itching from the scalp, and has restored my hair naturally, and, I have no doubt, permanently color.
You have permission to refer to me, all who entertain any doubt of its performing all that is claimed for it.
MISS FEERS, 202 Greenwich st.

I have used Professor O. J. Wood's Hair Restorative, and have admired its wonderful effects. It restored my hair where it had fallen off; it cleans the head, and renders the hair soft and smooth—much more than oil.
MARY A. ATKINSON.
Louisville, Nov. 1, 1855.

State of Illinois, Carlisle, June 27, '55.
I have used Prof. O. J. Wood's Hair Restorative, and have admired its wonderful effect. My hair was becoming, as I thought, prematurely gray, but by the use of the "Restorative" it has resumed its original color, and I have no doubt permanently so.
SIDNEY BREESE,
Ex-Senator United States.

[From the Washington Star.]
Among the many preparations now in use for the restoring, preserving and beautifying the hair, there are none that we can recommend with more confidence than Prof. Wood's Hair Restorative, now in general use throughout the States. This preparation possesses the most invigorating qualities, and never fails in producing the most happy results when applied according to directions. We refer our readers to the advertisement for a few of the innumerable certificates which have been sent by parties who have been benefited by it, and who feel happy in giving testimony to its wonderful effects produced on them.

L. SCOTT & CO'S
REPRINT OF THE
BRITISH PERIODICALS
AND THE
FARMER'S GUIDE.
GREAT REDUCTION IN THE PRICE
OF THE LATTER PUBLICATION.
L. SCOTT & CO., NEW YORK, continue to publish the following leading British Periodicals:
1. THE LONDON QUARTERLY (Conservative)
2. THE EDINBURGH REVIEW (Whig)
3. THE NORTH BRITISH REVIEW (Free Church)
4. THE WESTMINSTER REVIEW (Liberal)
5. BLACKWOOD'S Edinburgh Magazine (Tory.)
These Periodicals ably represent the three great political parties of Great Britain—Whig, Tory, and Radical,—but politics forms only one feature of their character. As organs of the most profound writers on Science, Literature, Morality and Religion, they stand, as they ever have stood, unrivalled in the world of letters, being considered indispensable to the scholar and the professional man, while to the intelligent reader of every class they furnish a more correct and satisfactory record of the current literature of the day, throughout the world, than can be possibly obtained from any other source.

EARLY COPIES.
The receipt of Advance Sheets from the British publishers gives additional value to these Reprints, inasmuch as they can now be placed in the hands of subscribers about as soon as the original editions.

TERMS.

	Per ann.
For any one of the four Reviews	$3 00
For any two of the four Reviews	5 00
For any three of the four Reviews	7 00
For all four of the Reviews	8 00
For Blackwood's Magazine	3 00
For Blackwood and three Reviews	9 00
For Blackwood and the four Reviews	10 00

Payments to be made in all cases in advance.—Money current in the State where issued will be received at par.

CLUBBING.
A discount of twenty-five per cent. from the above prices will be allowed to Clubs ordering four or more copies of any one or more of the above works. Thus: Four copies of Blackwood, or of one Review, will be sent to one address for $9; four copies of the four Reviews and Blackwood for $30; and so on.

POSTAGE.
In all the principal Cities and Towns, these works will be delivered *FREE OF POSTAGE*. When sent by mail, the POSTAGE to any part of the United States will be but Twenty-four Cents a year for "Blackwood," and but Fourteen Cents a year for each of the Reviews.
N. B.—*The price in Great Britain of the five Periodicals above named is about $31 per annum.*

THE FARMER'S GUIDE
To Scientific and Practical Agriculture.
By HENRY STEPHENS, F. R. S., of Edinburgh, and the late J. P. NORTON, Professor of Scientific Agriculture in Yale College, New Haven. 2 vols. Royal Octavo. 1600 pages, and numerous Wood and Steel Engravings.
This is, confessedly, the most complete work on Agriculture ever published, and in order to give it a wider circulation the publishers have resolved to reduce the price to
FIVE DOLLARS FOR THE TWO VOLUMES!
When sent by mail (post-paid) to California and Oregon the price will be $7. To every other part of the Union, and to Canada (post-paid), $6.
☞ *This work is NOT the old "Book of the Farm."*
Remittances for any of the above publications should always be addressed, post-paid, to the Publishers,

Dr. Jacoby's Establishment
FOR THE TREATMENT OF THE SKIN, and the Restoration of the Hair, No. 2 Tremont Street, Boston. Dr. Jacoby invites the attention of persons subject to diseases of the skin manifested in the gradual loss of the hair, or persons who are already bald, to his establishment, where a remedy can in most cases be found under his Mineral treatment. He cannot, in this connection, warn persons too strongly against the use of greasy substances, or those deleterious washes commonly composed of castor oil and alcohol, which are at once so fatal to the hair and skin. In many cases, the loss of the hair proceeds from these circumstances. The system expels through the pores of the skin a certain quantity of animal matter; if this is suffered to remain, the pores become clogged up, and consequently the health of the hair is impaired. Now, to add to these animal accumulations, greasy substances, particularly one so viscous and gummy as castor oil, is of course to increase the evil. Cleanliness is the first law of nature. The animal deposits must be removed, the skin kept free from all fatty matter, and the pores kept open. Let this be done, and in nine cases out of ten there will be no trouble with the hair. In cases where diseases of the skin have been contracted by a long neglect of these rules, a mineral treatment is necessary to restore the skin to a healthful and natural condition. Dr. Jacoby will be happy to give to any person calling on him a more extended explanation of the whole theory of such diseases and their treatment, founded upon simple and obvious conditions of natural science. The appended certificate is only one of a large number from other sources, testifying to the efficacy of his Mineral Washes as a remedy for baldness.

This is to certify that I have had an article called the Berlin Hair Wash applied during the last five or six weeks, to my head, for the purpose of renewing and strengthening the hair. It has been very effective in producing such a result, and I can cheerfully recommend the same to those afflicted with baldness or diseases connected therewith.
JONAS CHICKERING.

Dr. Jacoby would also call the attention of the public to his celebrated *Mineral Hair Dye*, which will be found, on trial, to possess advantages over any Dye ever discovered, or now in use. The majority of the usual Hair Dyes are composed of nitrate of silver, which, is a powerful caustic, not only sure to injure the skin and burn the hair, but producing green, pink, and metallic tints in its coloring. *Dr. Jacoby's Hair Dye*, although derived from minerals, has in its composition neither metal or acid. It will produce any tint from the highest brown to the deepest black, and *perfectly imitate* the natural hues of the hair. It will also soften the texture of the hair. It will, *in no case* stain, burn, nor in any way injure the skin. Any person can test its capabilities by a single trial. The most entire and perfect satisfaction is guaranteed for it.
The appended certificate from Dr. Charles T. Jackson will testify to its efficacy:
BOSTON, Nov. 15, 1851.
I have seen Dr. M. Jacoby's Hair Dye used in coloring hair of deep brownish black of a beautiful natural color, and can certify that it is perfectly efficient and permanent.
CHARLES T. JACKSON, M. D.,
Assayer to the State of Mass.

The Straight Whigs they, who stood firm and true when so many of their sometime associates faltered, have commanded and hold to-day the best regards of the generous Democracy of the South.

We cut the above from a recent letter from Washington to the Bangor Journal generally laudatory of the late Preston S Brooks. It is fitting that Mr Brooks should receive eulogies from such a source and in such an organ. But no all the efforts of his political friends, apologists and defenders can ever wipe out the infamy of his brutal and cowardly assault upon Sumner—for it was both brutal and cowardly, however much the sympathizers with the man and with the act may dwell upon the *chivalry* of Mr Brooks's character, and his impulsive nature.

But we desired simply to inquire in what particular respect the Straight Whigs of Maine have stood so "firm and true" as to recommend themselves to so strong a certificate of merit from "the generous democracy of the South." The sentence above quoted follows immediately upon a glowing eulogium of the principle of the Kansas Nebraska act—the repeal of the Missouri restriction against slavery and it appears to us the Straight Whigs of Maine have *not* been particularly firm in that matter. They started off in 1854 the strongest and fiercest denouncers of "that act of folly and infamy the repeal of the Missouri Compromise." They were far ahead of the more calm and moderate Republicans in claiming for themselves an *everlasting* opposition to that measure. They even went so far as to declare that that act absolved them from any further regard for compromises with the South, and that *they would utterly oppose for the future the admission of any further slave territory whatever* and would also demand the abolition of slavery even in the District of Columbia! These were the positions of the Straight Whigs of Maine in 1854. Have they been "firm and true" to them or do the "generous democracy of the South" now return thanks to them rather for their disgraceful abandonment of every one of those positions, and for the aid and comfort they have thus given to the men of the section and the party which have basely broken down the barrier against slavery erected by our patriotic republican fathers?

A TWO PER CENT CONTRIBUTION FUND.—The Philadelphia papers speak of a combination among certain railroad companies to obtain from Congress the repeal of the duties on railroad iron—and the recently discovered fact that a committee was appointed in 1854 by these combined companies to procure the repeal or a suspension of the duty for a limited time—and that an agreement was made with the members of the committee (among whom it is said there are some ex members of Congress) to pay them *ten per cent of the amount* that should be remitted or saved to the companies. It is stated that the committee would receive no less than *two or three hundred thousand dollars* if they should succeed in obtaining the proposed relief by Congress. A letter is published by the North American said to have been addressed to the various railroad companies by the chairman of this committee, offering to advance the necessary funds for carrying the thing through, provided an agreement is signed to pay over the ten per cent. It is conjectured—not without reason—that bribery is to be the main reliance in carrying the affair through.

An uncomfortable and severe change in the weather occurred on Tuesday night. That of the previous four days came to a termination by a sudden and violent change of wind to the west about 9 o'clock in the evening, with a blinding snow squall. The wind continued to come in cutting gusts all night,—the mercury rapidly falling,—until in the morning we had some of the severest weather of this most severe season—the wind blowing sharp, with the temperature from twelve to eighteen below zero.

LUCY STONE. It will be seen by an advertisement in another column that a lecture will be delivered by this celebrated lady, in City Hall on Friday evening. She is undoubtedly one of the ablest women of the day, and has many just ideas of the wants of the age,—such as all may coincide with. Her subject at the present time may be expected to draw out a long lecture.

Surprise parties to poor people are coming in vogue. A few evenings since the kind people of Newburyport surprised a poor woman with their generous company, a barrel of flour and other substantial comforts. In Dover a widow was visited and forty dollars left with her. What could be more beautiful!

We understand that about $100 was received at the Levee for the Poor on Tuesday evening.

John Shepley Esq of Saco, died at his residence in that town on Monday morning last.

FLOUR MILL.—According to the Skowhegan Clarion, a flour mill is to be started in that place within a short time. That paper says that neither pains nor expense have been spared to make it superior to any establishment of the kind in the state.

A New York editor numbers among the "Lost Arts," the art of making large loaves by the bakers.

Public Meeting in Castine.

At a meeting of the citizens of Castine, opposed to the recent change in our Post Office, held in the Town House on Friday evening, Feb 6th, Otis Little was chosen Chairman, and Samuel Dunbar, Secretary.

A Committee on resolutions was elected, consisting of Geo H Witherle, S F Devereux and Zadoc Witham, who reported the following series, which were unanimously adopted.

Resolved That Charles Rogers, Esq, for the acceptable manner in which he has performed the duties of his office, during his term of service as Postmaster in our village, merits and receives our heartfelt approbation.

Resolved, That his long experience, his close attention to his business, his strict sobriety and undoubted honesty, eminently qualified him to continue to hold this responsible station.

Resolved, that his removal was effected in a secret manner by a few party leaders for the furtherance of political schemes,—that it was done without affording the people any opportunity to express their sentiments in relation to it, and against the wishes of a large majority of our community.

Resolved, That we hereby reaffirm our confidence in his principles and character, and our determination to render him any assistance that may be in our power.

Resolved, That a copy of these resolutions, and of the proceedings of the meeting, be signed by the Chairman and Secretary, and furnished to Mr Rogers, and that copies be forwarded also to the Bangor Whig and Courier, and Ellsworth American, with a request for publication.

OTIS LITTLE, *Chairman.*

SAMUEL DUNBAR, *Secretary.*

MR EDITOR. In this age of progress on and reform surely a few words in regard to the dress of women will not come amiss. We all know there is great need of a change. When we look around us and see so many very sickly looking women and children, we involuntarily shudder. Our race is fast degenerating every succeeding generation brings with it new complaints and diseases.

Now there are many true and noble women all over the United States, who have adopted the new and healthful dress called the Reform Dress, and why cannot Bangor send forth candidates for the good cause. I *know* there are many here who would gladly adopt the Reform Dress if they dared to face *ridicule* but none dare venture to wear it *alone*. Now why not have these Reformers have a meeting to discuss the merits of the dress, and see if I cannot be brought into existence?

Will some Reformer respond to this and help a sister in the cause? J

[Our correspondent does not describe this "Reform Dress." Does she mean the Bloomer? The cry is for judicious healthful and economical reform in various particulars,—and without any departure either from the accepted rules of delicacy and good taste.

PARTICULARS OF THE HURRICANE IN THE PHILIPPINE ISLANDS.—The Moniteur de la Flotte publishes a letter from Manilla dated the end of November giving the following details of the late hurricane in the Philippine Islands:

"About the middle of last month we had very heavy gales from the westward but about the 21st the weather became more calm and the wind veered around to the south. On the 25th there was a complete calm with particular indications which are well known to the inhabitants as presaging some violent collision of the elements and considerable uneasiness prevailed. In the morning of the 27th the wind rose suddenly, and went on increasing in violence during the whole of the day, and became at length one of the most terrific hurricanes that had ever been witnessed in the country. Trees were torn up by the roots houses carried away and men and animals in the fields dashed to the ground with terrific violence.

All the island of Sunda is literally ravaged and the town of Manilla only presents the appearance of a heap of ruins. The nipas and houses along the banks of the Pasig have been blown into the river. In the capital alone upwards of 6000 houses have been destroyed. All the archipelago of the Philippines has suffered. Mindanao, Zeulou, Palaouan, Leyte and Panay have been completely desolated. On the small island of Samar, where there were 300 buildings not a house or tree now remains—all have been swept away. Boats which had been previously on the shore have been since found several miles inland and a small river in the southern part of the island has been dried up by the force of the wind. On the glacis of the city of Manilla some guns were blown from their carriages and carried a distance of more than a hundred yards. The number of houses destroyed is immense, far greater than was at first supposed. The loss of vessels on the coast is not yet known but it must have been very considerable. This hurricane, which lasted altogether eight hours exceeded in violence that of 1779, and was felt in all the Philippines at almost the same moment. It has been also felt at Borneo and the Moluccas, and as far as Java, but in a less violent degree."

A SINGULAR FASCINATION. An English paper relates the following unaccountable occurrence:

"One of the most singular instances in connection with material things, exists in the case of a young man who not very long ago, visited a large iron manufactory. He stood opposite a large hammer and watched with great interest its perfect, regular strokes. At first it was beating immense lumps of crimson metal into thick black sheets, but the supply becoming exhausted at length it only descended on the polished anvil. Still the young man gazed intently on its motion, then he followed its stroke with a corresponding motion of his head, then his left arm moved to the same tune, and finally, he deliberately placed his finger upon the anvil and in an instant it was smitten to a jelly. The only explanation he could afford was that he *felt* an impulse to do it, that he knew he should be disabled, that he saw all the consequences in a misty kind of manner but that he still felt the power within above sense and reason—a morbid impulse, in fact, to which he succumbed, and by which he lost a good hand."

A young man lately thought he had "a call to act." Falling on the "stage," he descended to the "omnibus" line but finding his talents unsuited even to this grade, he is now engaged in the [illegible] profession.

The Arabs always allow a man to divorce himself from a wife who does not make good bread.

The New York Tragedy.

Some particulars of interest were developed before the inquest, on Friday, which we have not heretofore stated.

Dr Blaisdell an intimate friend testified that Dr Burdell constantly expressed himself afraid of the parties in his house. Mrs Cunningham he declared, had often threatened to take his life, and this evidence was confirmed by that of a policeman who witnessed a quarrel that took place between the Doctor and the lady about the stolen note, in the course of which the lady struck the deceased, and vowed she would be revenged on him—*that she would have his heart's blood.* The murdered man continually complained to Dr Blaisdell that Mrs Cunningham had keys to all his locks, that she and her daughters and two gentlemen friends searched everything he had, and once purloined all his papers even going the length to abstract some of them. These persons, Dr Burdell said also, were in the habit of stealthily opening his door at night and looking in after he had retired, watching him without cessation. The day of the murder, the doctor was melancholy and low spirited, and begged Dr Blaisdell to go home and stay with him. The murdered man, it seems, had a presentiment of his fate, and made similar statements as regards parties in the house, to his cousin, Miss Dimis Hubbard.

Mrs Stansbury, who proposed taking the Doctor's house on the 1st of May next when Mrs Cunningham was to go out, testified to having visited the deceased on the day of the murder and to having proposed an agreement with him as to terms, which her husband was to come and sign on the following day. The Doctor, in making the arrangements, spoke in a loud tone of voice in very hard terms of Mrs Cunningham, expressing his unalterable determination that she should leave the house if he had to pay damages for it. He added that he had no doubt that if Mrs Stansbury should open the door, she would find his tormentress listening to their conversation. Mrs Stansbury went out and found Mrs Cunningham on the stair case, sure enough. Rev Mr Cox on another occasion discovered Mrs Cunningham shut up in the bath room listening to his conversation with the Doctor and other witnesses made it plain that nothing the Doctor said or did in his own house was hid from his tenant.

Positive testimony was given by several witnesses that the Doctor had made his will and to one witness he stated that he had left nothing to Mrs Cunningham in that document, and had had a quarrel with her on that account.

There was a large amount of testimony taken on Saturday. The two Misses Cunningham both testified to their mother having slept with them the night of the murder. Mr Blaisdell was re-examined, and testified that Dr Burdell told him the Wednesday before his death, that he had made a will leaving all his property to his blood relatives, and it was supposed that Mrs Cunningham overheard this conversation, as well as the one with Mrs Stansbury the day before the murder concerning the delivery of the house 31 Bond street to her possession on the 1st of May next. The will in question cannot be found. Mr Blaisdell's previous testimony was also important, in the statement that a certain bully whom the Doctor had sent to the State Prison for forgery, is still in prison in Virginia.

The evidence of Hon Levi J Chatfield and Mr Thayer taken on Sunday, was highly important, inasmuch as Mrs Cunningham talked to the latter gentleman as one of her counsel three weeks after the alleged marriage about renewing the suits for breach of promise of marriage, and for slander.

Legislature.

MONDAY, Feb 9.

SENATE.—Bill additional to provide for the education of youth (empowering towns &c to apportion 10 cents of the 60 cents school money among school districts) was read a second time.

Mr Jones moved an amendment making the apportionment discretionary, which was adopted.

Mr Woodbury moved to strike out 10 cents and insert the words "the amount above fifty cents."

Mr Woodbury's amendment was ...

Mr Mayoun moved the indefinite postponement of the bill which prevailed.

Mr Holbowell presented the petition of the Kenduskeag Bank Bangor, for renewal of charter. Referred.

HOUSE.—On motion of Mr Deering of Hampden

Ordered That the Committee on Mercantile Affairs and Insurance be instructed to inquire into the expediency of so amending the law relating to Insurance, that all foreign companies shall be required to establish an agency in accordance with chap 20 of the acts and resolves of 1856 before making insurance upon property in this State.

Mr Gilbert of Bath presented the petitions of Charles R. Porter for increase of salary as Judge of Probate of Sagadahoc County and the petition of John S Baker for increase of salary as County Attorney of same county and requested they should be referred to the delegation from Sagadahoc County.

Mr Duren of Calais moved to lay the petition on the table to give time for him to prepare an order to refer these and all other petitions for increase of salaries to a Joint Select Committee of one from each county. He said that he desired this course to be taken in order that the salaries should be equalized throughout the State.

At the suggestion of Mr Drummond the question on laying on the table was divided and the House refused to lay the petition of C R Porter on the table. The Petition of Mr Baker County Attorney of Sagadahoc, was laid on the table.

Petitions referred.—Of inhabitants of Sebec and Medford for an appropriation for bridge across Piscataquis River, or town of Atkinson in aid of same. Of Medford for an appropriation in aid of erecting Bridge across Piscataquis river in said town. Of Isaac W Thurston and others for an appropriation for road from Greenville to the head of Chesuncook Lake; of Russell Kittredge and others for bridge across Piscataquis River, of Stephen Danforth and others for same, of Eleazer A. Jenks and others for same.

DONALD MCKAY. We are happy to learn that all Mr McKay's creditors except three or four, anxious to see him once more actively employed have agreed to take 15 per cent. of their claims against him, that he may be able to commence business without embarrassment. They are well aware that his property would pay much more than this, but in consideration of the vast amount of business he has brought to this city, they are willing to give him every encouragement to go on again, satisfied that, if successful, he will pay them dollar for dollar. Consequently he has petitioned to come out of chancery at an early day. *Boston Atlas.*

A MISTAKE CORRECTED. A benevolent gentleman in Northern New York recently sent a donation of $2000 to the Church Book Society of New York, which, by mistake, was acknowledged as $3000 upon which he forwarded the additional $1000 to make his donation correspond with the printed statement.

BAD. The price of board in Jefferson City, where the Missouri Legislature sits, is thirty dollars per week. Members get only twenty-one dollars. Rather a losing place is a seat in that Legislature, unless, as the St. Louis Democrat hints, members play poker and win.

JOHN PHOENIX IN BOSTON.—The Knickerbocker for February is filled as usual with genial humor, and racy witticisms each worth the price of the magazine to a hypochondriacal patient.

We extract a letter to the editor from the matchless John Phoenix, who races this time in Boston.

"It is Sunday in Boston. I have been sitting in my room, No 78 Tremont House, by the window, which commands a cheerful view of a grave yard, musing on various matters and things in a solemn state of mind well befitting the place and occasion. Seventeen inches of snow fell last night, and Boston looks white like the Island of Ichaboe and to the full as desolate. Through the hollow and reverberating passages of this ancient building, around the corners of the sinuous streets, from each door and window, in every private and public building and from the houses of God resounds the peculiar sharp and hacking cough of the population of Boston. Every soul of them has it. It is the disease of the country. When I meet an acquaintance in the street, I abstain from the usual greeting, and invariably say 'How is your cough?' and the reply invariably is, 'About the same.' Coughing, and the ancient pastime of hawking, (followed by expectoration,) are the principal amusements in this cold city. In the grave yard beneath my window, on a slate tombstone, may be found I am informed, the following touching inscription:

Here I lie bereft of breath,
Because a cough, carried me off
Then a coffin, they carried me off in,

which, I doubt not, describes the case of the majority of the silent incumbents of the place of rest.

The Tremont House is in many respects a good institution, it is perfectly clean and well arranged, the attendance is good and the fodder excellent, but the own an inexpressible air of gloom and solemnity pervades the entire establishment well suited to Boston, but chilling to a stranger in the last degree.

I have attempted but two jokes in this solemn place, and they fell like the flakes of snow, silent and unnoticed. An unfortunate individual in the reading room last evening was seized with an unusual fit of coughing which, if a man could by any possibility be turned inside out would have done it and as a partial cessation of it occurred with his hair standing on end, (he had coughed his hat off) his face glowing with exertion, and the tears standing in his unhappy eyes, he very naturally gave vent to a profane execration. Every body looked shocked! I remarked in an audible tone to my companion, that the exclamation was a coffer dam an admirable contrivance for raising obstructions from the bottom of streams and probably adopted by the gentleman to clear his throat but no one laughed, and I incontinently went to bed. This morning on my arising I discovered that my boots, left outside the door to be embellished with blacking had, like those of Bombastes, not been displaced so I said to the porter, a man of grave and solemn aspect 'You have a very honest set of people about your house.' 'Why?' said the porter, with a somewhat startled expression. 'Because,' I rejoined, 'I left my boots outside my door last night, and find this morning no one has touched them.' That man walked off all slow and stately, and never knew that I was humorous. Disappointments have been my lot in life. I remember in early childhood going to the theatre to see Mrs H M Smith appear in two pieces as the bills said she would do it, and she did on the stage perfectly visible and entirely like any other lady. Upon the whole it is my impression that Boston is a dull, gloomy, precise and solemn city, which I take to be owing entirely to the intense cold that prevails there in winter, which chills and freezes up the warmer nature of the inhabitants, who don't have time to get thawed out before the cold comes back again. I have met many Bostonians in more genial climates, who appeared to be very hearty and agreeable fellows. I took a short ride yesterday, in the Metropolitan Rail Road cars which are dragged by horses over from the Tremont House to Roxbury. The only other occupant of the car was a young and lovely female in deep mourning. She wore a heavy black veil and her thick and beautiful auburn hair was gathered up on either side of her face beneath a spotless cap a widow's cap of snow muslin. I had always a feeling for widows a young and pretty widow especially, always excites my deepest interest and sympathy. I gazed with moistened eye on the sweet specimen before me, so young so beautiful, thought, and alas what suffering she has experienced! I pictured to myself her devotion to her husband during his last illness, the untiring watchfulness with which she hung over his pillow the unwearying and self sacrificing spirit with which she hoped on, hoped ever till in despair of her care, her love, he sank forever, and her agonized shriek rang in my ear, as with hands clasped and upturned eye, she felt that he was dead, her dream of life was over, her strength was gone, her heart was broken. The young widow had been regarding me earnestly during this time and probably imagined what was passing in my mind for throwing her veil over her hat, she turned partly around toward me and looking steadfastly in my face—she winked her eye at me! Yes, she winked her eye at me—the moral Phoenix and I rose from my seat and left the Metropolitan car and returned to the Tremont House."

COLOSSAL FOUNTAINS.—The fountains of the Crystal Palace at Sydenham, England are among the greatest wonders of the world. The large fountain throws a jet of water to a height of three hundred and fifty feet. Two towers are erected on the highest part of the grounds at two hundred and seventy feet high, powerful engines take water from artesian wells five hundred and seventy five feet deep and throw it to the top of these towers, whence it descends and feeds the fountains.—The total weight of each tower when the fountains are playing is over three thousand tons. Besides the two colossal fountains there are ten lesser ones, that throw jets one hundred feet high, as well as almost countless smaller fountains in addition to water temples cascades &c, and several thousand small jets requiring one hundred and twenty thousand gallons of water per minute to supply them. Ten miles of iron pipes are required to conduct the water that feeds these works. The sight, when they are all in full play, is said to be magnificent. The spectator sees before him a group of basins arranged on terraces that rise above each other, the Crystal Palace building crowning the summit, and each of these basins seems alive with jets flashing in the sunshine, and crossing and recrossing each other, while cascades diversify the scene, and the two colossal fountains shoot to a dizzy height.

BISHOP REYNOLDS of the Methodist Episcopal Church in Canada, died from disease of the heart, at Hamilton, Canada West, on the 17th of January, aged 71 years. He was born in Claverack near the city of Hudson, N Y, and has been a preacher for fifty years.

NEW JERSEY SENATOR. The Democratic members of the Legislature in Trenton are generally agreed upon the re election of Hon J. R. Thompson for United States Senator from New Jersey.

Samuel G Hatch of Bucksport, Me, fell overboard from the topgallant yard of the ship Sea-man on Saturday, while the vessel was off the South Shoals, and was drowned.—*Boston Courier.*

Death of Judge Parris.

Another of our venerable and respected citizens is gone. The Hon Albion K Parris is dead. This morning he rose as usual and at about half past seven o'clock was sitting by his fire, and in the act of moving forward to stir it, he dropped upon the floor dead, without a groan or any sign of suffering.

No man in Maine has filled so many places of trust, all the duties of which he discharged with singular fidelity. He was the first U S District Judge for Maine—a member of the Convention that formed the Constitution—was five times elected Governor, from 1821 to 1826—was Senator in Congress from 1827 to 1828—was appointed Judge of the Supreme Court June 25 1828, which office he held till 1836—when he resigned on being appointed 2d Comptroller of the Treasury, and removed to Washington.

Judge Parris was born in Auburn, Oxford county, in 1786 or 1788, graduated at Dartmouth College in 1806 was elected to Congress in 1815, and served till 1818, ... appointed District Judge. This office he held till 1851, when he gave it up and returned to Portland. [State of Maine.

BANGOR DAILY WHIG AND COURIER.

TELEGRAPHIC

TO THE DAILY WHIG AND COURIER

Congressional.

WASHINGTON, Feb. 11.

SENATE—When the Senate returned to their Chamber from the House, Mr. Bigler, the teller on the part of the Senate, made a report as to the result of the country, of the Electoral votes, adding the fact, the electors of Wisconsin did not assemble and cast the vote of that State till the day after the time prescribed by law.

Mr. Hunter said there would be no difference in the result whether the vote of Wisconsin be counted or omitted, but still he thought the best way to settle the question would be to adopt a resolution that the Joint Committee which had been appointed on the part of the Senate, be instructed to confer with the House committee and agree upon such a report as should be satisfactory to both Houses. He alluded to cases where similar difficulties had occurred in Michigan and Missouri, and observed that these difficulties had been settled in this way. He concluded by making such motion.

The President announced that in his declaration of the result, he had not assumed to decide the question whether the vote of Wisconsin should be counted or not, but had simply declared Messrs. Buchanan and Breckenridge Elected!

Mr. Neuse said that it was important to decide this question, because a case might occur when a similar difficulty might effect the general result. This question must be decided by somebody. If the two Houses separate and do not agree in their decision, who shall decide?

Mr. Butler felt a little concerned about this matter. He disputed the right out and out to ascertain who was President, except by the simplest rule of addition; but if the Convention could say which votes would be counted and which should not be counted, an occasion might arise when such a convention, in the exercise of its arbitrary power, could make a President of the United States without an election.

Mr. Stuart said that the subject had been exceeded. Precedents are very dangerous things, and he objected to going on new sort of supposititious case, and making a precedent which might be relied on hereafter. The difficulty in the present case was not of importance, as the result would not be affected by the decision, but showed the importance of some additional legislation by Congress, declaring the electoral votes which were not cast on the day prescribed by law should not be counted in future.—He could see no necessity for any further action on the subject this time.

Mr. Toombs said that when the Senate was called on to meet the House for the purpose of having the electoral vote counted, it became an important question which were votes and which were not. Who was to decide that question? Suppose a certificate was received that the votes had been cast in Nicaragua, and the presiding officer and the tellers had said that these should go in and be counted. Was there no remedy for that. We protested against the action of the presiding officer, because he had counted the vote of Wisconsin in announcing the result, and assumed to exercise the right of saying James Buchanan had 174, and John C. Fremont 114 votes. It belonged to the Senate and the House to decide which votes should be counted.

Mr. Butler thought it was a dangerous power to entrust any one to decide what votes should or should not be counted.

Mr. Douglas said that everything had been done which ought to be done, and action on the subject complete. The vote of Wisconsin ought not to be entered on the list for the reason that it was not cast in the Electoral College on the day designated by law. The only duty of Congress was to guard against the danger in future.

Mr. Seward congratulated the country that there was necessity for deciding whether or not the vote of Wisconsin shall be counted. He hoped Wisconsin will be counted. He hoped however that some measure will be adopted to provide against future contingencies.

Mr. Collamer could not see the necessity for the proposed committee of conference. It was generally admitted that Mr. Buchanan was elected in a constitutional manner, and that was the only question to be determined.

Mr. Hale was decidedly of the opinion that the vote of Wisconsin should be counted. He had always preferred substance to form. The people of that State ought not to be disfranchised because of the inability of the electors to reach the seat of government at a given day.

Mr. Hunter, at the request of the Senators, withdrew his motion.

Mr. Butler offered a resolution reciting the facts in the case, and concluding with the declaration that Messrs. Buchanan and Breckinridge were elected but afterwards the Senate accepted a substitute submitted by Mr. Collamer, similar in purport, but omitting a reference to the votes of Wisconsin.

On motion of Mr. Weller the resolution was tabled.

Mr. Weller offered a resolution that a committee to consist of one member of the Senate, and two members of the House, be appointed to inform Messrs. Buchanan and Breckenridge of their election.

Mr. Crittenden moved an amendment in substance that the vote of Wisconsin ought not to be included in the list of electoral votes, and that any member of either House has the privilege to object to the counting of said vote, and that it was competent for the Senate and House alone to decide the question.

Mr. Weller appealed to Mr. Crittenden not to insist on the amendment, as the two subjects had no connection.

Mr. Crittenden thought that that was the only way to get his proposition considered at all.

Pending the question the Senate adjourned.

HOUSE. Mr Barbour moved reconsideration of vote referring the submarine telegraph bill to the Post Office committee. Motion entered for consideration to-morrow.

Mr Washburn reported that Mr. Whitfield is not entitled to a seat as delegate from Kansas.

A resolution to lay this report on the table was pending, when the Hour arrived for counting the Presidential vote, which business was proceeded with in accordance to the usual custom.

The President announced the result to the House, and declared Mr. Buchanan elected; President and Mr. Breckinridge Vice President.

The question was raised as to counting the vote of Wisconsin, the electors having met on the 4th instead of the 3d of December, which caused much discussion.

The New York Murder.

NEW YORK, Feb. 11.

The stray trunk at Philadelphia supposed to be Ecker's proves to belong to another person. Ecker's laundryman was on the stand, but his evidence was unimportant. One witness testified to the honesty of Farrell's character, but the latter's testimony is not generally credited.

Ship News.

STONINGTON, Feb. 11.

The ship American of Wiscasset, Me., eight days from Cork for New London struck on Watch hill reef yesterday evening, and was got off, but went ashore again in the night—the captain and his wife and children were taken off in the evening. The ship is damaged considerably and leaks badly, but is laying easy at present. Her bulwarks are gone.

A steamer leaves to-night to get her off if possible.

The Freshet at the West.

PITTSBURG, Feb. 11.

The River is now falling at this point.

At Cincinnati it has risen two feet since last night and is still rising and full of floating ice, making navigation dangerous.

The steamer Avery has been sunk at Rockport. The steamer Vienna was sunk on Saturday in the Illinois.

The Missouri River is open to Weston, and the Mississippi to Keokuk.

ALBANY, Feb. 11th.

The cars on the Hudson River Railroad at present go upon the Boston road to Catham, and from thence by the Berkshire road to Hudson where they got on their own track.

The ice is formed on the river so that teams can now cross. At 6 o'clock last night the river was navigable. The subsiding of the water show the losses in the lower part of the city to have been immense. Nearly every person have met with some loss. Many houses are still inundated but are accessible from the ice, which somewhat lessens the suffering.—The fronts of all the warehouses about State street bridge, were found battered in, some were entirely gone. State Street Bridge was found to be a complete wreck. The Hudson River freight Depot is completely undermined. The Boston Ferry, East Albany has been carried away, and the Greenbush Dock destroyed.

At Greenbush, the damage and suffering are comparatively greater than here. One house was flooded so that the attics were resorted to for safety. Scarcely a single person in the village escaped without loss.

The amount received by the relief Committee is over $1000, and the distribution committee are still engaged in relieving.

Fatal Explosion.

BUFFALO, Feb. 11.

This afternoon the boiler connected with the machinery for driving the pumps of F. D. Ballows section of the canal enlargement, near Black Rock dam, exploded, demolishing the building in which it was enclosed, and instantly killing John Stoughton the engineer, John Rider, fireman, and five laborers who were at work on the canal.

Hingham Murder Case.

BOSTON, Feb. 11th.

The Coroner's Jury in the inquest on the body of Mr. Gardner at Hingham have rendered the following verdict;—That he d Hosea J. Gardner died in his own dwelling on the first day of February last by a deadly poison called White Arsenic, administered by his wife, Abigail Gardner, between the 27th and 31st day of January now last past.

Freshet.

HAVRE DE GRACE, 11, 7 P. M.

The ice has been moving steadily since daylight yesterday and has become gorged on the flats two miles below this place. The rise in the water here, is about five feet above the usual high tide and it is still rising slowly.

No damage has been done here yet but at Port Deposit the damage is very great.

The tide water canal is under water, but it is thought that the ice gorging outside has been somewhat of a protection.

The railroad ferry boat started at two this afternoon with two trains of passengers from Baltimore, but since 5 o'clock has made no headway, and is not half-way across. A number of passengers left her before dusk, and picked their way over on cakes of ice. There is very little prospect of her being able to reach either shore until the ice moves again.

Missouri Legislature.

ST. LOUIS, Feb. 11.

In the House, the day before yesterday, a constitutional amendment was passed restricting the State debt to $30,000.

The bank committee agreed to report in favor of eight banks, with three branches each, with an aggregate capital of $12,000,000, to be chartered this session of the Legislature.—The Banks are not to be allowed to issue notes of a less denomination than fives.

The river is still falling slowly, and the weather continues cold.

PHILADELPHIA, Feb. 11.

Walberga last concert to the school children of this city took place at noon to-day. It was a very pleasing and brilliant affair—over 3000 children were present.

Markets.

NEW YORK, Feb. 11.

Flour buoyant—common to strait state 6,40 a 6,50; upper lake 6,40 a 6,65; common to good Ohio extra 6,80 a 7,00; extra Genesee 7,40 a 8,50. Southern steady—mixed to good 6,90 a 7,20; Fancy and extra 7,25 a 8,00; Canadian firm—Superfine 6,60 a 6,70; extra 7,00 a 7,70.

Sugar firm—Muscovado 9½ a 10; Havana 9¾ a 10.

Molasses quiet—Muscovado 60; Cuba clayed 53.

Another Murder.

Mr. Hosea J. Gardner, of Hingham, Mass., died on Saturday, Feb. 1st, under circumstances which led his friends to believe that he was poisoned. The contents of his stomach have been examined by Dr. Charles T. Jackson, and arsenic discovered. His wife has been arrested charged with administering the poison, and a judicial examination is now being had. Circumstantial evidence is very strong against her, Mr. G. had previously expressed fears that she intended to poison him, in order to facilitate her intercourse with a man with whom she had become intimate.

The Boston Journal thus describes Mrs. G., who, it seems, was formerly a resident of this county:

"Her face impresses the stranger unfavorably, exhibiting cheek bones of remarkable prominence, sunken cheeks, and lack lustre gray eyes. She is about 40 years of age. Her maiden name was Marshall, and she came from Penobscot county, Me. It is said that she belongs to an energetic, spirited family, and that her grandmother once killed an Indian with a bread shovel, on account of some depredation or other."

Mr. Gardner is spoken of as a very worthy man. He was postmaster at Hingham at the time of his decease.

The schooner Jane T. Glover has been seized at New York on a charge of having been fitted out for the slave trade. She formerly belonged to Harwich, Mass., but was recently purchased by a Cuban residing in that city, who has fled to Havana.

A gallant groom of ninety-five years, Mr. Robert Gray, and Mrs. Catherine Rielly, a lovely bride of ninety-two years, recently formed a matrimonial alliance in Fluvanna County Virginia.

Important to Ship-Builders!

The subscriber is now prepared to furnish E. G. Pomeroy's Patent Copper-Coated

Iron Spikes and Bolts,

......With all kinds of......

Fastenings used for Ships.

From the only manufacturers in the United States—with great improvement—superior in strength, and about *one-half* the cost of Copper Fastenings.

Orders sent to the subscriber, (who is the only Agent for their sale and manufacture in the New England States,) will meet with prompt attention.

Samples sent to order, with Certificates from *A. A. Hayes*, Assayer to the State of Massachusetts, also of Committee on Science and the Arts of the Franklin Institute, Philadelphia, and Marine Inspector for the Port of Boston and of those who have used and are using the Fastenings.

For further information apply to

WILLIAM FLOWERS,

26 Mercantile Square,

Circular Block, Bangor.

Bangor, Feb. 4, 1857. 1yt

Look at This!

The subscriber wishes to inform all in want of a *LARGE PICTURE*, that his facilities (as well as Pictures) are unsurpassed in this city, as he will convince all who will take the trouble to call and examine a large variety of Specimens.

He keeps constantly on hand a large stock of *Cases* and *Frames*, of all kinds, which he will be happy to sell, with a better Picture than can be obtained elsewhere in this city. All are invited to call and satisfy themselves.

J. H. DODGE.

GROVER & BAKER'S

New Family Sewing Machines!

PRICE $75.00.

Reasons

Why Grover & Baker's

SEWING MACHINE

—IS—

Universally preferred for Family Sewing.

1st. It is more simple and easily kept in order than any other Machine.

2d. It makes a seam which will not rip or ravel though every third stitch is cut.

3d. It sews from two ordinary spools, and thus all trouble of winding thread is avoided, while the same Machine can be adapted at pleasure, by a mere change of spools, to all varieties of work.

4th. The same Machine runs silk, linen thread, and common spool cotton, with equal facility.

5th. The seam is as elastic as the most elastic fabric, so that it is free from all liability to break in washing, ironing, or otherwise.

6th. The stitch made by this Machine is more beautiful than any other made either by hand or machine.

We have been appointed agents for the above Machines, and have them for exhibition and sale at our store, where the public are invited to examine them.

feb2 FENNO & HALE.

DeGuibon's Improved

Non-Explosive Camphene & Fluid

LAMPS and CANS.

HAVING purchased the Patent Right for the State of Maine, for the above Lamps, I am now prepared to offer them to purchasers in every variety, adapted to the use of Parlors, Churches, Stores, Factories, Vessels, Steamboats and Railroads.

These Lamps are constructed on scientific and philosophical principles, and are the *only sure* prevention against explosion from Camphene and Burning Fluids, being made of the most durable materials; not subject to accident from breakage or corrosion—will burn freely without smoke, giving an equal and steady light, (the nearest to gas ever produced.)

The above Lamps have proved, after four years trial, to be the best Lamps in use, giving universal satisfaction, and proving perfectly safe.—

These Lamps will be sold at wholesale or retail as *low* as the ordinary Camphene and Fluid Lamp, by J. S. RICKER, *No. 19 West Market Square*, Bangor, Me., dealer in Lamps, China, and Crockery Ware.

A REVOLUTION IN FARMING.

Corn Planted by Machinery.

A SUBSTITUTE for the slow and tedious process of planting corn has long been considered a desideratum; but until now the labored effort of inventive genius has failed in its production, though years and much money have been spent to accomplish so great a piece of mechanism.

Some estimates of the importance of an Invention that will materially facilitate the production of this great staple may be formed from the fact that in 1850 nearly 600,000,000 bushels were raised in the United States, exceeding in value all other grains, with the entire cotton crop in addition.

The present universal method of planting this great crop is (after the ground is ploughed,) by marking out the surface 3 or 4 feet apart each way, and in the angles thus formed a man drops 4 or 5 kernels and covers with a hoe at an expense of $1 to $1.25 per acre; but failure of part, and sometimes the whole crop results from the difficulty of obtaining sufficient force at the proper time in the spring to secure the planting at the most critical time.

Practical men understand this every where. Numerous devices and machines have been made, but failure has only resulted. A plan perfect in one respect was certain to fail in another, so as to render the whole worthless.

No machine until now has been made to meet the universal demand of the farming interests in HILL, check or angular planting, so as to enable him to cultivate with plough and horse-hoe the crop, both ways between the rows.

Drill planting is abandoned because of the impossibility of cultivating but in one direction.

The long wished for machine has been invented and perfected by a young Scotchman, and is the result of three years unwearied efforts, patient investigation, and the application of scientific and mechanical principles to accomplish a desired object.

The device is entirely new, simple and beautiful, working automatically, and yet so ingeniously and naturally as almost to appear the result of instinct.

What Whitney's great invention did for cotton this great invention will do for corn, viz: augment the quantity and diminish cost.

No description could convey a clear idea of its peculiar and simple mechanism.

Without any Cogs, Band, Pulleys, Cranks, Shafts, Springs, Lever, or Gearing of any kind, with a horse and guided by a man or boy, this machine executes in a neat and perfect manner, the following described work, being what is wanted by every farmer:

1st. Furrows out the ground any required depth.

2d. Drops the corn (as many kernels as desired) in a space of 4 inches diameter mathematically in the HILL equidistant, in one tenth of a second.

3d. Covers the HILLS and presses the earth as you do with a hoe.

4th. Marks accurately the position of each HILL.

5th. Deposits, if wanted, guano, poudrette, ashes, lime, plaster, or other common fertilizers, exactly in the HILL.

And 6th. Also, sticks the pumpkin or squash seed in the HILLS at the usual distances, as now done by hand.

And all this at a cost of 15 cents an acre by single machine, and 10 cents per acre by a double one—10 acres being planted by the first and 20 by the second, in one day, with no more force than a man and horse.

We are aware these statements look fanciful to that large, stereotyped, old fogy class, who are about a quarter of a century in the rear of this progressive age, and whose ideas revolve in the old, slow coach train; but we assure all such antiquated gentlemen that every word is literal, naked unadulterated truth, obvious, clear, and distinct to the most obtuse intellect or the dullest comprehension, besides being demonstrated by actual use on an extensive scale.

Here is a magnificent monopoly of a great staple Machine, of immense intrinsic value. It must reach the large productive class, whose interests are not alone promoted in its application, but in its application the millions are to be blest in the increased production of grain, and consequently cheap bread.

In the distribution of this splendid prize, (such it really is,) there is a rare chance for a safe investment, lucrative beyond all ordinary calculations; in short, the truth in this connection seems almost fabulous.

Sole proprietors, we are willing to divide upon an equitable basis, and offer the monopoly of this magnificent speculation for States and Territories upon the following terms, *from which there will be no deviation*.

All New England and Southern States *five cents* per farm. All other territory, six cents per farm—except Illinois, which will be Ten cents per farm; Minnesota, $1300; Kansas and Nebraska $800; California $600.

New York State will be sold in Counties to suit parties who wish to invest in limited sums. The census of the United States of 1850 will be the basis of estimate.

Terms of payment liberal and accommodating; and to a company who wish to take the entire, interest we will sell at a fair figure. We invite the public to examine this subject, and we will exhibit the machine with pleasure, but especially to those who take an interest in the material progress of this inventive age, as well as to those who cannot fail to find this an available medium of replenishing their exhausted pockets, or augmenting their already ample resources.

P. S. We have made provision for the supply of all orders for machines at $18 each with fertilizer, or $16 without—retail; (1-4 off wholesale) until the Territory from which such orders come is sold; and when transferred will make an equitable discount in price of territory, for machines thus delivered. Each purchaser of States controls the making, selling and price in their territory; and if not ready to manufacture for ensuing spring sales, we will furnish by 100's or 1000's at a small advance on cost, leaving a margin sufficient to satisfy the most exacting cupidity.

Address or call corner of Friend and Market streets, near Boston and Maine Depot.

STEAMERS.

Winter Arrangements.
NEW YORK & PORTLAND.

The Splendid and fast Steamer WESTERNPORT, Capt. P. S. Berry, will run regularly between New York and Portland, as follows:

Leave Brown's Wharf, Portland, every Wednesday afternoon, at 4 o'clock; and returning, leave New York, Pier 12 N. R., every Saturday afternoon, at same hour.

This vessel has just been fitted up with fine accommodations for passengers, making this the most speedy, safe, and comfortable route for travellers between New York and Maine.

Passage $4,50. No charge for State Rooms.

☞ Goods forwarded by this line to and from Montreal, Quebec, Bangor, Bath, Augusta, Eastport, and St. John, with despatch, at the cheapest rates.

For Freight or passage apply to
H. B. CROMWELL, Pier 12 N. River, N. Y.
EMERY & FOX, Brown's Wharf, Portland.
Portland, Jan. 22, 1857. 6m

Summer Arrangement.

The Steamers ATLANTIC Capt. Geo. Knight, and the FOREST CITY, Capt. F. A. Prince will run as follows:

Leave Atlantic Wharf, Portland, every MONDAY, TUESDAY, WEDNESDAY, THURSDAY, and FRIDAY, at 7 o'clock P. M., and Central Wharf, Boston, every Monday, Tuesday, Wednesday, Thursday, and Friday, at 7 o'clock, P. M.

Fare in Cabin, $1,25
Fare on Deck, 1,00

Freight forwarded daily over the A. & K. and P. & K. Railroads, to Bangor, and all way stations.

Each Boat is furnished with a large number of State Rooms, for the accommodation of Ladies and families; and travelers are reminded that by taking this Line much saving of time and expense will be made, and that the inconvenience of arriving in Boston at late hours of the night will also be avoided.

The Boats arrive in season for the passengers to take the earliest trains from the city.

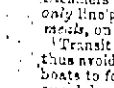

The Company are not responsible for baggage to any amount exceeding $50 in value, and that personal, unless notice is given, and paid for at the rate of one passenger for every $500 additional value.
march14 tf L. BILLINGS Agent.

California Steamers,
Carrying the United States Mail.

5th and 20th of each Month.

Greatly Reduced Prices. 50 lbs. Baggage Free.

Through Tickets, including transit of the Isthmus, via Panama R. R.

By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense.* This is the *only* line giving entire Through Tickets including *meals*, on the Isthmus.

Transit made in *four hours, entirely by daylight,* thus avoiding the great exposure by night in open boats to fever and ague, and 200 miles of dangerous lake and river navigation, over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus accurring passengers by the Mail Line a *sure* and *short* passage, without any detention on the Isthmus.

☞ *Tickets must be signed by one of the Company's Agents before they will be recognized by the Agent at Panama,* and Tickets thus signed can be obtained of the *only authorized Agent* for the Atlantic and Pacific Mail Steamship Companies, in this city. C. L. BARTLETT, Agent,

American & Foreign Patents.
R. H. EDDY,
SOLICITOR OF PATENTS,
(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)
No. 76 State Street, opposite Kilby St., BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also, in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions, and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington, to procure a Patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, did business at the Patent Office as Solicitor for procuring Patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.

[From the present Commissioner.]

"August 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the Office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.
CHARLES MASON,
Com'r of Patents.

Try it! Try it!! Try it!!!
G. W. STONE'S LIQUID CATHARTIC —AND— FAMILY PHYSIC,

The most important discovery ever made in Medical Science, being a compound of Barks and Roots, which forms the most powerful, safe, and agreeable physic ever offered to the public.

THE necessity of such a medicine has long been felt both by the heads of families and physicians. Its advantages over cathartics given in the form of Pills or Powders must be obvious to every intelligent person. It operates more immediately and effectually upon the system, and at the same time is infinitely less difficult to administer, being quite agreeable to the taste. It not only produces all the effects where physic is required, but completely removes Habitual Costiveness, leaving the bowels perfectly free. It expels all humors from the blood; is a certain cure for the Piles, Regulates the action of the Liver, frees the stomach from Bile, Invigorates the whole Nervous System, and removes the cause of all local pains, such as *Rheumatism, Neuralgia, Tic Doloureux, Gout, Pains in the Head, Side, Stomach, &c.*

It may also be relied upon in all diseases of the Bowels—DYSENTERY, DIARRHŒA, AND CHOLERA MORBUS, yield at once to its magical influence. Again we repeat TRY IT!—it needs no other recommendation. No family will be without it after they have properly tested its merits. Reader, if you have tried other remedies, without success, despair not—relief is now at hand. Are you suffering from Scrofula, six bottles of my Liquid Cathartic will cure you. Would you be relieved from habitual Costiveness, three bottles will effect all that you desire. If you are afflicted with Rheumatic, Neuralgic, or other local pains, two bottles will free you from them.—All humors will be eradicated from the blood by the use of from one to six bottles. In short, if you require a physic for any purpose, this is the most reliable, safe, and agreeable to the taste that has ever been placed within the reach of the public.

PRICE $1,00.

LINCOLN'S
WATER PROOF BLACKING, AND LEATHER PRESERVATIVE.

Keep your Feet dry and you will seldom need a Physician.

IS it not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried, it soon becomes hard, stiff, and cracks; but when it is water-proof this is remedied. By the application of this preservative, it remains soft, and entirely impervious to water.

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water-proof, but it likewise softens the leather, and it will

Positively wear twice as long.

I have now used it for three years, and a large part of that time have worked in a wet tannery, with my boots constantly in water, and have not had my feet wet during that time. I can therefore in all confidence, recommend it to the public as the best article in the market.

NEW AND IMPORTANT DISCOVERY IN THE SCIENCE OF MEDICINE!

TRIESEMAR.—None are genuine unless the engravings of the Seals of the Patent Office of England, the Seals of the Ecole de Pharmacie de Paris, and the Imperial College of Vienna, are fixed upon each wrapper, and are in each case.

Sold by Dr. H. A. BARROW—Member of the Imperial College of Vienna, and Royal College of Surgeons, London, who may be personally consulted at his residence, No. 157 Prince Street, (few blocks West of Broadway) New York, from 11 o'clock in the morning till 2, and from 4 o'clock till 8 in the evening, (Sundays excepted.)

TRIESEMAR No. 1—Is the remedy of general and local debility, loss of virile power, premature decay, and all the distressing consequences arising from early abuse, &c.; all physical impediments vanish like magic before its influence, thus rendering its use invaluable to those entering the marriage state.

TRIESEMAR No. 2—Entirely eradicates all traces of those disorders which copavia and cubebs have so long been thought an antidote for to the ruin of the health of a vast portion of the population.

TRIESEMAR No 3—Is the great European remedy for that class of disorders which, unfortunately, the English physic an treats with mercury to the inevitable destruction of the patient's constitution and which all the Sarsaparilla in the world cannot remove.

TRIESEMAR Nos. 1, 2 and 3 are prepared in the form of a lozenge, devoid of taste or smell, and can be carried in the waistcoat pocket. *Sold in tin cases and divided in separate doses, as administered* by Valpeau, Lallemand, Roux, Ricord, &c. &c. Price $3 each, or four cases in one for $9; which saves $3; and in 27 cases, whereby there is a saving of $9.1.

Special arrangements have been made with the various Expresses, the nine-dollar cases of the Triesemar, and the larger sizes, will be forwarded by Dr. Barrow, carriage paid, immediately on receiving a remittance, to any part of the world, securely packed, and addressed according to the instructions of the writer, thus securing to the public genuine European preparations, and effectually protecting them from spurious and pernitious imitations. The three-dollar cases are as usual, but not free of carriage.

☞ No. 157, Prince-st., (a few blocks west of Broadway) New York.—jan. 13 ly

1,000,000 BOTTLES SOLD!

Entered according to Act of Congress in the year 1853, by J. Russell Spalding, in the Clerk's Office of the District Court of Massachusetts.

J. RUSSELL SPALDING'S
ROSE MARY

This great and popular preparation is decidedly one of the nicest and best articles in the world for the HAIR!

It imparts a richness and brilliancy, cleans, ornaments, invigorates, embellishes, removes dandruff, relieves headache, and has probably been used for restoring and preventing the falling off of the hair with as much success as any article ever known. It has stood the test of time and use, and all can rely upon it.

Sole Proprietor, J. RUSSELL SPALDING, Manufacturing Chemist. Principal Depot, 27 Tremont-st., opposite the Museum, Boston, Mass., where all orders should be addressed. The facsimile of his signature is on every bottle of the genuine.

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and in sewing every sort of fabric, either of cloth or leather they have been fully tried and approved. Sewing machines of other manufacturers often fail to work, but SINGER'S MACHINES ALWAYS OPERATE PERFECTLY, being strong, durable, and complete in contrivance and workmanship. A perfect Sewing Machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. Thus the *reliability* of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING, of a frail and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skillful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machines has lately been doubled. No other can compare with them in quantity of work.

☞ New machines, of the latest improved style will be exchanged on liberal terms for old sewing machines, of our own make, or for operative machines of other manufacturers. Local agents wanted to sell our machines. ☞

N. B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I. M. Singer & Co's Gazette," a paper devoted entirely to the subject. It will be sent gratis.

Thrice-Weekly
Kennebec Journal for 1857.

DURING the approaching session of the Legislature, the undersigned will continue the publication of the *Thrice-weekly Journal,* being the XIIIth Volume of the same.

As is well known, the chief purpose of this paper is to afford the public of Maine a faithful account of the deliberations and actions of its Legislature. With the reports of the Legislative doings, we intend also to publish the proceedings of Congress, as they are given in the best reports from Washington.

As the renewal of all the Bank Charters in the State will come before the Legislature, this Winter, the debates and proceedings will be of peculiar interest to all who are interested in Bank property.

The numerous lines of railroad which now traverse the State in all directions, will enable a very large proportion of our subscribers to receive their papers a few hours after their publication. This fact renders a subscription to the Thrice-Weekly more desirable and satisfactory than in former years.

The Thrice-Weekly Journal will be published on *Monday, Wednesday* and *Friday* mornings.—The price will be

Single Copy—One Dollar for the Session,

As usual, payable in advance. Any person forwarding us $8 shall be entitled to the ninth copy for his trouble. To any one who will send us $10 we will send two copies extra for his trouble.—Whoever shall send us $24, shall be entitled to three copies extra, and in like ratio for a larger amount.

☞ It is desirable that the names of subscribers accompanied with the money, may be forwarded at or before the commencement of the session.—*Money remitted by mail at our risk.*

PROFESSOR WOOD'S
HAIR RESTORATIVE.
It has Worked Miracles!

THAT ALL THE BALD AND GRAY can be restored perfectly to original growth and color, so far as their locks are concerned, does not admit of doubt; besides, it will cure every possible disease of the scalp, whether developed as dandruff, itching, or in the shape of cutaneous eruptions—even scald-head—and in no possible case will it fail of curing, as if by magic, nervous or periodical Head-ache, and if used twice a week by the young regularly, it will preserve the color, and keep the hair from falling to any imaginable age. Read and judge.

Millford, Worcester Co., Mass., Nov. 1855.

PROF. O. J. WOOD—Dear Sir:—I take pleasure in bearing voluntary testimony to the magic effects of your wonderful Hair Restorative. As far back as 1835, my hair commenced falling off, until the top of my scalp became bald and smooth as glass, and it has continued to fall for a great many years, notwithstanding I have used many celebrated preparations for restoration. Seeing your advertisement, I was induced to give your article a trial, and to my utter astonishment, found, after a few applications, that my hair became firmly set, and assumed a glossy and beautiful appearance; and by the time I had used a quart bottle, my bald head was covered over with a young and vigorous growth of hair, which is now from one to two inches and a half in length, and growing fast.
Yours truly,
HENRY GOODRICH.

Charlestown, Mass., Aug. 9, 1855.

GENTS:—Nothing but a duty and sympathy that I feel to communicate to others that are afflicted as I have been would induce me to give this public acknowledgment of the benefit I have received from Prof. Wood's Hair Restorative. When I first commenced using it, my hair was quite gray, and in spots entirely bald. I have now used the Restorative about five months, and my hair is entirely changed to its original color, (brown) and the new hair is over three inches in length on the spots where it was bald. I have also been much gratified at the healthy moisture and vigor of the hair, which before was dry, and it has ceased to come out as formerly.
Respectfully yours, &c.
MRS. R. A. STODDARD.

From Mrs. Ingalls, a well known nurse in Boston.
Boston, Oct. 19, 1855.

GENTS:—At your request, and being so highly pleased with the effects of the Restorative, I am free to state that my hair had become quite thin, and entirely white. I have for the last five years been in the habit of using dye, but hearing of the extraordinary effects of this article, I was induced to try it. My hair has been restored to its original thickness, and also to its former color, which is light brown.
Yours respectfully,
MRS. INGALLS.

The following is from the Pastor of the Orthodox Church, Brookfield:—
Brookfield, Mass., Jan. 12, 1855.

PROF. WOOD—Dear Sir—Having made trial of your Hair Restorative, it gives me pleasure to say, that its effects have been excellent in removing inflammation, dandruff, and a constant tendency to itching, with which I have been troubled from my childhood, and has also restored the hair, which was becoming gray, to its original color. I have used no other article with anything like the same pleasure and profit.
Yours truly,
J. K. BRAGG.

(From the Jersey City Telegraph.)

WHAT IS IT FOR—THIS WOOD'S HAIR RESTORATIVE?—Is a question asked daily by hundreds. We answer without hesitation, no fear of contradiction, that it is the only article known which will do all it promises for the human hair. *It will renew its growth—it will stop its falling—it will restore its natural color!* It is not a hair dye, but a speedy and efficacious Restorative.

THE GREATEST
MEDICAL DISCOVERY
Of the Age.

Dr. KENNEDY, of Roxbury, has discovered in one of our *common pasture weeds,* a remedy that cures

EVERY KIND OF HUMOR
From the worst Scrofula down to a common Pimple.

He has tried it in over 1100 cases, and never failed except in two cases, (both thunder humor.) He has now in his possession over two hundred certificates of its virtue, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will clear the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of Erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruption of the skin.

Two to three bottles are warranted to cure the worst cases of ringworm.

Two to three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure the salt rheum.

Five to eight bottles will cure the worst cases of scrofula.

A benefit is always experienced from the first bottle; and a perfect cure is warranted when the above quantity is taken.

Reader, I peddled over a thousand bottles of this in the vicinity of Boston. I know the effect of it in every case. So sure as water will extinguish fire, so sure will this cure humor. I never sold a bottle of it but that sold another; after a trial it always speaks for itself. There are two things about this herb that appear to me surprising; first, that it grows in our pastures, in some places quite plentiful, and yet its value has never been known until I discovered it in 1846—second, that it should cure all kinds of humor.

In order to give some idea of the sudden rise and great popularity of the discovery, I will state that in April, 1853, I peddled it, and sold about six bottles per day—in April, 1854, I sold over one thousand bottles per day of it.

Some of the wholesale Druggists who have been in business twenty and thirty years, say that nothing in the annals of patent medicines was ever like it. There is a universal praise of it from all quarters.

In my own practice I always kept it strictly to humors—but since its introduction as a general family medicine, great and wonderful virtues have been found in it that I never suspected.

Several cases of epileptic fits—a disease which was always considered incurable, have been cured by a few bottles. O, what a mercy if it will prove effectual in all cases of that awful malady—there are but few who have seen more of it than I have.

I know of several cases of Dropsy, all of them aged people cured by it. For the various diseases of the Liver, Sick Headache, Dyspepsia, Asthma, Fever and Ague, Pain in the Side, Diseases of the Spine, and particularly in Diseases of the Kidneys, &c., the discovery has done more good than any medicine ever known.

No change of diet ever necessary—eat the best you can get, and enough of it.

DIRECTIONS FOR USE.—Adults one table spoonful per day—Children over ten years dessert spoonful—Children from five to eight years, tea spoonful. As no directions can be applicable to all constitutions, take sufficient to operate on the bowels twice a day.

The Principal Office for the State of Maine and the British Provinces, is at the Drug and Medicine Establishment of H. H. HAY, 16 & 17, *Market Square, Portland, Maine,* to whom all orders should be addressed. Sold by respectable Druggists throughout the United States and British Provinces.

PRICE $1,00.

AYER'S Cathartic Pills
(SUGAR COATED,)
ARE MADE TO
CLEANSE THE BLOOD AND CURE THE SICK
Invalids, Fathers, Mothers, Physicians, Philanthropists, read their Effects, and judge of their Virtues.

FOR THE CURE OF
Headache, Sick Headache, Foul Stomach.

Pittsburg, Pa., May 1, 1856.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will cure others as they do me, the fact is worth knowing.
Yours with great respect, ED. W. PREBLE,
Clerk of Steamer Clarion.

Bilious Disorders and Liver Complaints.

Department of the Interior,
Washington, D. C., 7 Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of *bilious disease* so obstinate that it did not readily yield to them.
Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

Post Office, Hartland, Liv. Co., Mich., Nov. 15, 1855.

DR. AYER: Your Pills are the perfection of medicine. They have done my wife more good than I can tell you. She had been sick and pining away for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her, by expelling large quantities of worms (dead) from her body. They afterwards cured her, and our two children of bloody dysentery. One of our neighbors had it bad, and my wife cured him with two doses of your Pills, while others around us paid from five to twenty dollars doctors' bills, and lost much time, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be prized here.
GEO. J. GRIFFIN, Postmaster.

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends.
Yours, J. V. HIMES.

Warsaw, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.
JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA MORGRIDGE.

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawkes, of the Methodist Epis. Church.

Pulaski House, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until, by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.

Senate Chamber, Baton Rouge, La., 5 Dec., 1855.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that had afflicted me for years.
VINCENT SLIDELL.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a Dinner Pill, they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even Deafness, and Partial Blindness, have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skillful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

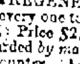

AYER'S CHERRY PECTORAL
FOR THE RAPID CURE OF
COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, INCIPIENT CONSUMPTION,
and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already known. Nay, few are the families in any civilized country on this continent without some personal experience of its effects; and fewer yet the communities any where which have not among them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have abundant grounds to believe the CHERRY PECTORAL saves more lives by the consumptions it prevents than those it cures. Keep it by you, and cure your colds while they are curable, nor neglect them until no human skill can master the inexorable canker that, fastened on the vitals, eats your life away. All know the dreadful fatality of lung disorders, and as they know too the virtues of this remedy, we need not do more than to assure them it is still made the best it can be. We spare no cost, no care, no toil to produce it the most perfect possible, and thus afford those who rely on it the best agent which our skill can furnish for their cure.

PREPARED BY DR. J. C. AYER,
Practical and Analytical Chemist, Lowell, Mass.
AND SOLD BY
All the Druggists in Bangor, and all Druggists everywhere.
H. H. HAY, Portland, General Agent for the State. july17'56

ANTAGONISTIC
To Prejudice and Empiricism!

OLD DR. CULVERWELL'S
Member of the Royal College of Surgeons (1827,) Licentiate of the Hall (1824,) and 28 years Medical Referee, &c.)

Radical Regenerator,
FOR SEMINAL WEAKNESS,

In all its forms, as Nocturnal and Diurnal Emissions, Nervous Irritability, Premature Decay, Loss of Virility, Impotency, and all diseases arising from early indiscretion.

This excellent Remedy, discovered by the world renowned DR. CULVERWELL, in London, the most successful practitioner in his line for the last 30 years, is now for the first time offered to the afflicted in the fullest confidence of its extraordinary virtues. Its salutary effect is almost instantly felt, and it will doubtless at once, supersede all other means resorted to medical, surgical or otherwise, to arrest and to cure this awful disease. A single trial will convince the most sceptical, that a safe and perfect cure may now be had at the expense of a few dollars, which up to this date could not be procured for all the gold of the world. The heavy expenses incurred in bringing this article before the public could not be risked, were its superiority over every means hitherto employed for the same purpose not a sure guarantee that its employment by one person would, through recommendation, result in an eventual sale to many.

DR. CULVERWELL'S admirable and entirely novel plan of treating these diseases, is, in the interest of humanity, recommended to physicians throughout the land, to whom every facility will be afforded for testing its wonderful efficacy in their private practice.

Full and plain directions for all the different varieties of the complaint accompany Dr. Culverwell's REGENERATOR REMEDY, so as to enable every one to treat himself or herself successfully. Price $2, on the receipt of which it will be forwarded *by mail,* free of postage, to any part of the country. Address, Messrs. BRIDGMAN & CO., Druggists and Apothecaries, 163 Grand-St., New York, Sole Agents for the United States and Canada. Nov. 10 d&wly.

TREMONT MILLS.

Teas, Coffees, Chocolates, Cocoas, Spices, &c.
WHOLESALE—AND ALSO IN SMALL PACKAGES.

E. E. DYER & CO.,
(Sign of the Chinaman grinding Coffee,)
141 WASHINGTON STREET BOSTON.

Supply the best, finest and purest articles at the lowest Cash prices. Their Stock consists of

Teas, Coffees, Chocolate, Cocoa, Spice, Pepper, Mustard, Ginger, Cayenne Pepper, Nutmegs, Cinnamon, Cloves, Cream Tartar, Tartaric Acid or Preparations, Dandelion Root, &c.

Having every facility for manufacturing and preparing the several articles named, the public may rely on having them pure and genuine, as they are put up carefully, and bear our name and label, "TREMONT MILLS, E. E. DYER & CO." To give consumers some idea of our rates, we annex the following scale of prices, viz:

5 lb. Souchong Tea,	[illegible]	5 lb. Mocha Coffee,	[illegible]
5 lb. Oolong Tea,	1,75	5 lb. Java Coffee,	[illegible]
5 lb. Y. Hyson Tea,	2,25	5 lb. good Coffee,	[illegible]

☞ The Spices are put up in ¼ and ½ lb. cans, expressly for family use, and are warranted to be strictly a pure article, and only need a trial to establish them in public favor.

SPANISH COFFEE.—We would call the attention of consumers and dealers to our *Spanish Coffee,* as an article which is highly esteemed, and gives the greatest satisfaction. It is prepared with particular care, and by a peculiar process in roasting, one pound of this coffee, it is believed is equal to 1½ lbs. of any other.

DANDELION COFFEE.—This article is carefully prepared at our mills, and put up in packages having our trade mark, and may be relied upon, as the best and most approved mixture of dandelion and coffee.

TARAXACUM, or *Prepared Dandelion Root.* This article is prepared and roasted at our Mills, is relished by Family Grocers generally in city and country, and bearing our trade mark, "*Chinaman grinding coffee,*" may be relied upon as the *genuine article.* The proportion used is about one half the quantity of coffee. The price is 20 cents per pound, and it is warranted to be the same as that which has been sold for fifty cents a pound by druggists.

The medical properties of Dandelion are well known, and held in high estimation by all who use it. This being a preparation of the root, with all its medicinal virtues, retained, can be mixed with coffee or not, as best suits the taste, and will be found cheap and economical as a family beverage, one pound of which being nearly equal to two pounds of coffee. It is prescribed by many eminent physicians, to invalids, children and aged persons, as a nutritious beverage, and as a remedy for Dyspepsia, Billious affections, &c.

☞ Be careful to observe that all our Coffees have our trade mark, "Chinaman grinding coffee."

☞ *To Grocers and Dealers* a liberal discount is made enabling them to supply their customers at the same low rates.

TO CASH PURCHASERS.—Our object being to secure large sales at small profits, we offer inducements which cannot be afforded by those who do business on the credit system; and we confidently invite an examination of the quality of our stock, and our prices, as compared with those of any other house.
Boston, Aug. 25, 1856. 3tawSm vbp

A SURE PRIZE
For Every Tenth Person!!
CHANCE FOR A GRAND PIANO, FOR EVERYBODY.
ONLY TWO DOLLARS!!

400 Beautiful Gold Watches; 100 Rosewood Grand Piano Fortes; Ladies' Bracelets, Watch Chains, Breast Pins, Diamond Rings and Silver Spoons
TO BE GIVEN AWAY.

Encouraged by the success which has attended the publication of *LESLIE'S ILLUSTRATED NEWSPAPER,* which is now closing its second volume, the Proprietor has determined to return to his numerous subscribers a portion of his profits in the following manner:

Every tenth subscriber will have his money returned by the next mail, and the paper will be sent *gratuitously* for his term of subscription.

Thus in every 1000 subscribers, 100 will have their money returned and the paper sent for six Months when they remit Two Dollars, and Twelve Months when they remit $4.

Every subscription, as it is received, by letter, or otherwise, at the Office, 12 Spruce-st., New York, will be registered in a book kept by the Proprietor himself.

The Prize numbers will be 10, 20, 30, 40, 50, 60, 70, 80, 90, and 100 in each hundred. Persons taking any of these numbers will have their money returned and the paper sent free, as above.

Persons obtaining the following numbers in every thousand, in addition to the return of their subscription money as above, will receive the following prizes:

No.	
100,	Lady's Gold Bracelet.
200,	Gentleman's Gold Watch Chain.
300,	Gold Watch, (Lady's or Gent's.)
400,	Lady's Gold Chatelaine.
500,	Set of Silver Tea Spoons.
600,	Gold Breast Pin.
700,	Gold Watch! (Lady's or Gent's.)
800,	Diamond Ring, (Lady's or Gent's.)
900,	Set of Silver Dessert Spoons.
1000,	Grand Rosewood Pianoforte.

These prizes will be given to the same numbers in each and every thousand, in addition to the subscription money being returned and paper sent free to each and every tenth subscriber, as above stated.

This subscription book was opened October 1856, in which all future subscriptions will be entered.

Every person whose money is returned, or who is the recipient of either of the above prizes, will be required to furnish an acknowledgment of the same, and their names will be published for reference to them in the advertising columns of Leslie's Illustrated Newspaper.

It should be borne in mind that every subscriber under all circumstances, whether they receive a prize or not, will get more than a full equivalent for his money in the paper itself. This is the only Illustrated Newspaper in the United States.

CLUBBING.—Persons sending us Eleven Subscribers are certain to receive back one subscription and have a chance for two; for example, at the receipt of the eleven subscriptions, the last number on the books might be 60—the eleven additional subscribers will then include two prizes.

FRANK LESLIE'S ILLUSTRATED NEWSPAPER.—The last numbers of Frank Leslie's Illustrated Paper have come to hand. In style and general appearance it resembles—and is quite equal to—the London Illustrated News, which is world-renowned for the excellence and variety of its illustrations. The New York paper, however, is given at half the price of its London prototype. The engravings in *Frank Leslie* are fully equal to those in *Ballou's Pictorial.*—*Whig, Boston, Ill.*
